Cretors (Giles) OEM Ventless Hood

- Baffle Filter (First Stage): Cretors p/n 14476-4
  - Removes larger grease particles.
  - Clean on an every other night basis.
- Electrostatic Filter (Second Stage): Cretors p/n 14476-WH
  - Removes (zaps) smaller grease particles.
  - Clean on a nightly basis (a second filter and cleaning tank are included to provide for easy daily rotation)
  - Use a Simple Green solution for cleaning.
- Disposable Filter (Third Stage): Cretors p/n 14476-5
  - Catches any remaining grease particles
  - Replace with new filter every 2-3 months.

Cretors Replaces the Charcoal Filter with a Disposable, Polysorb Filter to Allow for the Popcorn Smell to Escape the Hood.
