

MERCHANT

MID-SIZE POPPER – SUSPENDED KETTLE

Designed with key features found in our larger poppers, the Merchant delivers increased popcorn production with a high performance, 16 oz nickel-plated, all-steel kettle equipped with Cretors' convenient kettle dump and return system. A favorite among mid-sized concession operators, this machine's compact footprint satisfies the need for increased production while taking up minimal concession space.

Merchant and optional base

- Welded stainless-steel frame and base
- Rolling casters for mobility
- Automatic cover lift
- LED popcorn sign available
- (customer side only)
- 35 lb tilt out corn bin

Merchant

- Automatic cover lift
- Welded stainless-steel frame and cabinet
- LED sign available on customer side only

MERCHANT / ECONO-MERCHANT 5.16

ECONO-MERCHANT

MID-SIZE POPPER – SUSPENDED KETTLE

The Econo-Merchant is our economy version of the Merchant. It comes equipped with many deluxe features including the convenient kettle dump and return system and Cretors exclusive Cornditioner system, which keeps popcorn dry, crisp and ready to enjoy. Customize both machines with options that will ensure safety and allow both salted and sugar corn to be popped.

Econo-Merchant and optional base

- Welded stainless-steel base and frame
- 35 lb tilt-out corn bin
- Manual cover lift

Econo-Merchant

A simplified, economic popper with the world-class Cretors kettle that remains the heart of the machine.

- Welded stainless-steel frame and cabinet
- Manual cover lift

Contact your Cretors representative for a complete list of agency approvals for each machine. Images may not reflect current equipment modifications, features and accessories.

MERCHANT / ECONO-MERCHANT 5.16

KEY FEATURES

- Clean-in-place, nickel plated, all-steel kettle
- One-piece lid ensures maximum corn expansion
- Direct drive agitator motor provides longer motor life
- Cycling pilot light indicator
- Illuminated eye-level rocker switches
- Dual-stage disposable filter system on Merchant
- Single-stage washable filter system on Econo-Merchant
- Clean out drawer
- Internal heat lamps and heated corn deck
- 35 lb tilt-out corn bin
- Equipped for direct oil feed, use with automatic oil pump
- Exclusive counter-balance kettle dump and return system (excluding Econo-Merchant)
- Circulating hot air conditioner system to keep popcorn warm, dry and crisp
- LED lighted sign on Merchant only
- Automatic jump up kettle lid on Merchant only

OPTIONS

- Stainless-steel kettle
- Salt/sugar switch
- Patented One-Pop control
- Patented One-Pop control with cycle counter

Stainless-steel kettle

- Stainless-steel durability is built directly into the kettle and will never rust.
- Stainless steel is superior to other surfaces and is not damaged by carbon remover or kettle cleaner.
- It provides improved heat transfer technology, which evenly heats the bottom of the kettle and creates a more uniform popping surface temperature that heats up quickly to maximize corn expansion.

Patented One-Pop control/One-Pop control with cycle counter

- This patented safety feature will bring you peace of mind! It not only saves energy, but it reduces the chances of a grease fire in your home theatre, grocery store, car dealer, hotel or anywhere else you pop. It's the safest machine on the market. With the push of a button the kettle will heat, pop a batch of corn, and turn itself off after one popping cycle, not allowing an unattended kettle of popped corn to catch fire if forgotten.
- Counter option will count the number of popping cycles the popper has performed, ideal when the number of popping cycles needs to be recorded. It's perfect for profit-sharing programs or calculating corn usage.

Salt/sugar switch

With a single switch, change between the higher temperature of salted corn production and the lower temperature needed for sugar corn, kettle or glazed popcorn production. Amount of oil dispensed is also automatically adjusted.

Contact your Cretors representative for a complete list of agency approvals for each machine. Images may not reflect current equipment modifications, features and accessories.

OIL PUMPS, HEATERS AND WARMERS

The stainless-steel design of our oil pumps, heaters and warmers make them simple to use. Cretors offers three styles of oil pumps: The Bag-in-Box (BIB) Oil Pump, the Self Contained Automatic Bucket Pump and the Box Pump. Ideal for movie theaters, concession stands, restaurants, gourmet popcorn stores, and self-serve applications.

The Original Automatic Bag-in-Box (BIB) Oil Pump

Cretors first brought this innovation to concession stands based on a customer request for a pump that was easier to use and keep clean. The robust gear pump will ensure extended-term pump life.

- Heated shelf holds and warms two 35 lb boxes of popping oil
- Electronic timer provides accurate portion control when used in a popcorn machine.
- Heated oil tubes available for coconut oil
- Front or rear oil line (optional)
- Remote control switch
- Cabinet heater blower for use with coconut oil (optional)

Bag-in-Box (BIB) Short Oil Pump

This single-shelf pump is perfect for situations when the double-shelf BIB Oil Pump is not practical due to space limitations.

- Heated shelf holds and warms one 35 lb box of popping oil

Box Pump

A self-contained BIB oil pump with independent power cord provides compact oil delivery. This pump automatically delivers the proper amount of oil to the kettle with the push of a button. Magnets allow the pump to be placed anywhere in the machine. For liquid oils only.

50 lb Bucket Pumps

- **Self-Contained Bucket Pump** for use with Profiteer and T-3000 Plus models
- **Automatic Bucket Pump** for use with all large poppers that are electrically wired for a pump
- Automatic portion control heats, measures and delivers oil to kettle.
- Rugged cast aluminum heating element
- Electronic 30-minute heat timer
- Use with 50 lb oil pail

Bag-in-Box (BIB) Backroom Warmer

Melting and maintaining popping oil at the proper temperature takes time. The BIB Backroom Warmer stores and liquefies four standard sized boxes on heated shelf decks, ensuring you have the popping oil you need when you need it.

- Holds and warms four 35 lb boxes of oil
- Heated shelf decks melt and maintain product for immediate use
- Can be used to heat other BIB items, such as cheese or topping
- Two-shelf warmer also available

Heated Oil Pail Step

The Oil Pail Step makes it easy to slide a 50 lb pail of coconut oil into the base of your Cretors popcorn machine without spillage. Our step features a passive low-wattage heater to liquefy your reserve pail of coconut oil for an easy switch over to a fresh pail when needed.

Hot Rod

Hot Rod is the fastest, most economical way to melt solidified coconut oil in a pail. Rugged construction allows it to be forced into cold, hard oil. Insert the heating element directly into a pail of coconut oil, plug in and allow the heat to gently melt the oil for popper use.
