T280 SERIES – ICE CRUSHER

SHOWN WITH
GB560 SERIES ICE MACHINE AND
B650D BIN

THE BIG CRUSH

KOLD-DRAFT crushed ice is superior to flaked ice. Why? KOLD-DRAFT is known for its pure, clear, more solid ice. KOLD-DRAFT crushed ice is made from these harder, denser cubes, so it lasts longer and melts more slowly than flaked ice. KOLD-DRAFT crushed ice makes excellent cold food displays and chills iced drinks without diluting.

Need cubes and crushed ice? Our Ice Crushers are designed to work with the GB Series Cubers, resulting in a machine that makes and stores cubes and crushed ice. This machine will be a fully automated machine which will produce both cubes or crushed ice, which can be separated in the bin with an optional bin divider.

KOLD-DRAFT ice machines feature a unique “upside-down” horizontal evaporator and water plate assembly. As water is sprayed upward into the evaporator cells, the pure water freezes first while particulates and air are forced out and dumped at the end of each cycle. This leaves only clear cubes.

KOLD-DRAFT’s T280 crushers are recognized for longer life and lower maintenance than flake ice machines. To facilitate maintenance, the T280 is serviceable from the front and is armed with our 3-year “bumper-to-bumper” warranty on all parts and labor.

STILL THE ONLY CUBE OF ITS KIND.

IT'S NICE TO BE NOTICED™

KOLD-DRAFT®

Ice Machines • bins • crushers • dispensers

Exterior Finish:

Stainless steel cabinet, crusher mechanism, and hopper for cleanliness, corrosion resistance, and long life.

Clearance Requirements:

Please see ice machine recommendations.

Crusher mechanism has ball bearings for durability.

Dual voltage, 50/60 Hz. motor.
1/3 HP capacitor start energy saver motor.

Provides for crushed and cubed ice when used with a divided bin.

Safety interlock provided to prevent operation of crusher when panels are removed.

THE BIG CRUSH

KOLD-DRAFT crushed ice is superior to flaked ice. Our T280 crushed ice is made from harder, denser cubes, so it lasts longer and melts slower than flaked ice.

Dimensions/Weight

Description	Dimensions / inches (cm)			Ship Weight
	W	D	H	
T280	42.3" (107.4cm)	25.5" (63.5cm)	15.5" (39.4cm)	144lb (65kg)

General Specifications for T281/T284

Model Number	Voltage (V/HZ/PH)	Number of Wires	Min. Circuit Ampacity ¹	Max. Fuse Size	Operating Range	Use with Models
*T281	115/50-60/1	2	7.2	15	104-126V	GB561
*T284	208-230/50-60/1	2	4.1	15	198-253V	GB564/GB1064

*Models are for GB560 and GB1060 Series Energy Efficient Models.

We reserve the right to make product improvements at any time. Specifications and design are subject to change without notice.

Note: Always disconnect power before cleaning or servicing equipment.
Automatic motor operation when used with **KOLD-DRAFT GB Series Ice Machines**.
Pre-wired to operate with either one or two **KOLD-DRAFT GB Series Ice Machines**.
